## PRODUCT DETAILS

The DeltaLum LED Light system in conjunction with the DeltaLum Led Skylight are covered by the Australian Innovation Patent Application No. 20181010435. The uniquely innovated design allows for natural daylight to illuminate the patio area, while at night time the system operates as a fully functioning lighting system.

## PRODUCT FEATURES

- Available in 5 different configurations to suit the complete range of Delta Panels roofing systems.
- Remote Control and Wall-mounted Controller
- Durable translucent PVC extruded sections
- Available in White, Cool and Soft White and RGB
- Easy to installation
- Low Voltage Power source
- Dimmable Trimac Power Supply

## PRODUCT SPECIFICATIONS

Manufactured from translucent extruded PVC with added UV stabilizer, the DeltaLum™ LED lights are designed for a long, useable lifespan.
