

A WALLING SYSTEM TO SUIT ALL INTERNAL & EXTERNAL APPLICATIONS

ONE SOLUTION FOR ALL YOUR STRUCTURAL, ACOUSTIC, FIRE & WATERPROOF NEEDS

Dintel Structural Walling is a lightweight stay-in-place formwork system manufactured from a durable non-toxic polymer, which when filled with ready mixed concrete, produces a load bearing, fire resistant structural wall. Easily connected by 'snap together' joints the Dintel wall can be built faster and cheaper than traditional methods.

To find out more about our range of Dintel products and accessories contact us today on (07) 4669 6291 or email admin@qpbuilder.com.au
